## CERTIFICATIONS

*Jul '21* AWS CERTIFIED CLOUD PRACTICIONER [1]

## WORK EXPERIENCE

*Jun '21–Aug '21* E&J Gallo Winery – PROGRAMMER ANALYST INTERN – INFOSEC

- *Technology used:* AWS CloudFormation, EventBridge, GuardDuty, Lambda, Secrets Manager, SQS, several vendor APIs
- Saved personnel time by automating the manual remediation of low to high severity findings, achieved by developing a serverless, real-time alert and auto-remediation system deployed across 20+ accounts and 17 AWS regions
- Improved endpoint security by auditing hundreds of AWS resources both manually and through automation for security flaws and best practice conformance, including EC2 security groups and IAM policies and roles
- Proved the scalability of the auto-remediation system by pitching and validating my solution with AWS Solutions Architects, an AWS Security specialist, and Technical Account Manager

*Jan '19–Jul '21* JNJ Software LTD – FULL-STACK SOFTWARE DEVELOPMENT ENGINEER

- *Technology used:* Docker, Go, Grafana, HTML/CSS/JS, Kubernetes, MongoDB, Node.js, Prometheus, Redis, TypeScript
- Powered the core of a growing business in a fast-paced development environment by building, documenting, and maintaining myriad projects, including REST APIs using TypeScript and MongoDB, client-facing and internal web dashboards in Node.js, and object-oriented language libraries
- Grew existing infrastructure to handle nearly one million messages per day and process terabytes of data per month by designing and building a distributed, scalable, real-time web scraping platform and real-time message pipeline
- Optimized key performance indicators like pipeline latency to a sub-80 millisecond average through data analysis and profiling systems and applications with tools like Grafana and Prometheus

*Aug '20–Present* George Fox University – CSIS LAB ASSISTANT

- *Technology covered:* C/C++, Java, L<sup>A</sup>T<sub>E</sub>X, MPI (MPICH), PostgreSQL, Python, Scala
- Empower and lead students toward understanding concepts and technologies from intro to CS core courses, including data structures, algorithms, parallel programming paradigms, relational databases, and programming style and best practices
- Assist in running university-hosted events like the ICPC (Inter-collegiate Programming Contest) and GFU High School Programming Contest

## EDUCATION

*Aug '18–May '22* George Fox University — Newberg, OR

GPA: 3.7 · *Computer Science, Concentration in Cyber Security*

- Selected as one of 40 mentees to participate in the GFU "IGNITE" industry mentorship program
- Won first place out of 8 teams by working with two colleagues to develop BookLend [2] [3], a peer-to-peer borrowing and book lending service for students, in the 2021 GFU Code Jam
- Elected member of the CSIS Student Advisory Board [5]
- Student under the George Fox Honors Program [4], a Great Books / humanities general-education program
